

**Jr. Web Developer**  
**Palm Beach Gardens, Florida**

**About Junxure:**

Junxure is a rapidly growing technology firm with locations nationwide. We are committed to providing total firm technology solutions to the independent financial services professional. We have developed cutting-edge Client Relationship Management software for the Financial Services industry and are looking for a Junior Web Developer to add to our growing team.

Our experienced development team is made up of the top programmers in our field. Our team members are extremely self motivated and highly dedicated. You will have the unique opportunity to work with THE BEST of the best.

**Responsibilities:**

- Develop, code, test, and debug new software or enhancements to existing software
- Perform maintenance on existing software products
- Write programs according to specifications
- Assist in the development of software user documentation

**Requirements:**

- Bachelors or Masters Degree in Computer Science
- Minimum of 1 year of directly related experience
- Must have experience with ASP.Net, VB.net, C#, HTML, and MSSQL
- Graphics is helpful, but you must enjoy coding above all
- Must be extremely motivated, and a self-starter
